

# ELS Bottle Stand

Use the ELS Bottle Stand to light up clear, frosted or patterned glass bottles or any range of textured pieces.

Part of the Emblazon Lights® Series, ELS Bottle Stand can be set to any colour you wish. The non-battery (plug-in) version has a touch sensor while the battery-operated (rechargeable) version has a button, allowing two modes of operation: manual colour set and automatic cycling mode.

## Versions

- White base plug-in or battery-operated
- Black base plug-in or battery-operated

The battery-operated version can operate for up to 13 hours. It can be fully recharged overnight using a power plug.

## Suggested Applications

- Contemporary addition to the party table
- Highlight clear spirits
- Highlight crystal vases or other glass pieces
- Add colour to display cabinets

## Specifications

- 91mm (3.58") in diameter
- 38mm (1.50") in height
- Power consumption: 5VDC, 600mA, 3W
